Uses cases

02

WAREHOUSE LIGHT PICKING

Smart Module that optimize picking process inside the warehouse

- Integrated with Voice Picking
- High availability
- Prepared for harsh environments
- Real time data processing
- Expandable features to include predictive maintenance, indoor location, etc
- Device Security

Uses cases - AGROAIR

03

CROPS PARAMETERS COLLECTION

Precision Agriculture

- (very) remote data access
- Operation automation
- Data-driven decision making
- Carried out under inaccessibility and low radio coverage conditions
