

NEW TOYS FROM SGO ARE COMING TO NAB 2018!

With NAB just around the corner, we can't wait to unveil the very latest developments! We are also introducing a brand **new product** as part of our natively integrated **Multi-dimensional Workflow Concept**.

You will also have a chance to see a new version of award-winning **Mistika VR**, the fastest stitching software on the market and **Mistika Ultima** that is up for a significant boost with improvements which will undoubtedly turn a few heads.

**There will be regular public demos of Mistika VR and Mistika Ultima throughout the day.**

Besides that, some of the most inspiring industry professionals will be sharing their broad knowledge and experience through different sessions at SGO's booth. You're welcome at any time to come say hello, see what we are doing and meet the SGO team. This year we are in a new location in the North Hall, booth N2503VR. SGO and Mistika Ultima can also be seen at **Tangent Wave** (SU7814) and **Quantum** (SL8511).

**Visit SGO and bring back home expert advice and fresh ideas.**

Looking forward to seeing you!  
Geoff Mills, Managing Director
