

# THINK TANK #Vehicles7YFN (2<sup>nd</sup> EDITION)

## AUTONOMOUS, CONNECTED & SUSTAINABLE VEHICLES

*Mobility, Urban Infrastructure and Social Impact Implications in Europe*

### DEFINITION

#Vehicles7YFN is a Think Tank that explores the latest trends in the development of Smart Mobility Systems, the basis for a sustainable transport model in Europe.

#Vehicles7YFN is a multiyear ongoing process that, underpinned by the Oxford Scenario Planning Approach, aspires to generate shared understanding and vision for mounting the enormous upcoming challenges at all levels (social, economic, technological) that global mobility entails.

### GOALS

- Create the referent discussion forum at the European level regarding autonomous, connected, electric & shared vehicles
- Build a Strategic Experts Committee with relevant and internationally recognized figures
- Develop a multi-sector shared vision of the industry, in a climate of constructive partnership and trust
- Generate and update annually strategic scenarios informing us of the transition of the energy & transport models in Europe
- Share disruptive ideas and content about the sustainable transformation of the ecosystems, value chains and business models
- Promote innovation by rewarding a start up to be incubated in an internationally renowned hub

### TARGET GROUPS AND ATTENDEES

AMETIC, recognized expert in digital transformation, organizes this Think Tank and aims to define the objectives together with the main European players in the automotive, energy, telecom, financial services and urban planning sectors.

The Think Tank is formed by 50 participants, promoting the diversity and multiculturalism of its constituents:

- 25% C-Level (CEO, CTO, CIO)
- 25% Researchers and academicians
- 25% Standardization and regulation policy-makers
- 25% Geo-strategists and visionaries about the upcoming opportunities in different business models of the future

(!) Explanatory note:  
All activities will be held in English and under the "Chatham House Rule"

### SPONSORSHIP MODELS

MAIN PARTNER SPONSOR	20.000 € / 16.000 €*
PARTNER SPONSOR	10.000 € / 8.000 €*
ASSOCIATE SPONSOR	6.000 € / 5.000 €*

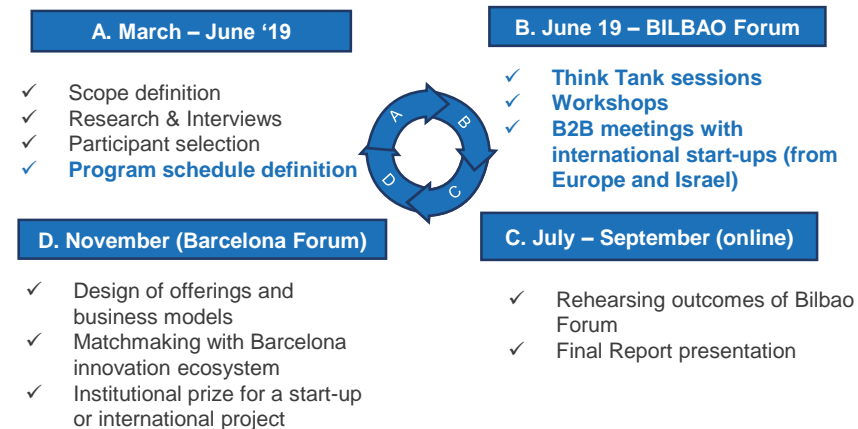

\*Price only available for AMETIC members

### SCHEDULE

The event agenda will be determined according to the following thematic blocks:

1. Urban & Territorial Planning
2. IoT/5G Communications
3. Software, AI & Big Data
4. Regulatory environment
5. Business models
6. Sustainable households
